Nordplus 2024. gada projektu konkurss

Nordplus application round 2025 is open!

Welcome to the Nordplus application round of 2025, the third round in the programme period, 2023 – 2027.

The Nordplus programme of the Nordic Council of Ministers invites Nordic and Baltic institutions and organisations working with or involved in education and training to apply for funding in the application round of 2025.

If you – or your organisation – are working within the field of education and training, you can now apply for Nordplus funding for transnational student, pupil, learner or teacher mobility, as well as joint project and network activities between educational institutions and organisations in Denmark, Estonia, the Faroe Islands, Finland, Greenland, Iceland, Latvia, Lithuania, Norway, Sweden and Åland.

The deadline for applications to the round of 2025 is **Monday 3 February, 23:59 CET**, and the total amount of available funds in the round is about 10.1 million euro.

Semināra mērķis

Pievērst projektu sagatavotāju uzmanību būtiskākajiem tehniskajiem un saturiskajiem jautājumiem projekta pieteikuma sagatavošanas un iesniegšanas procesā Nordplus elektroniskajā sistēmā Espresso

<https://espresso.diku.no/>

- ✓ Uzsvāri prezentācijā balstās uz novērojumiem iepriekšējo gadu (2019.-2024.) projektu pieteikumu izvērtēšanas procesā, kā arī uz iepriekšējo konkursu laikā saņemtajiem projektu iesniedzēju jautājumiem.
- ✓ Prezentācijā minētais uzskatāms par pieredzē balstītiem ieteikumiem un priekšlikumiem. Obligātās prasības projektu iesniedzējiem norādītas [Nordplus Rokasgrāmatā](#)

Introduction to Nordplus Junior

Nordplus Junior gives contributions to school's strategic quality work through partnerships between schools in the Nordic and Baltic countries. All activities aim at strengthening and developing collaboration and includes everything from minor ventures with a focus on the process and the actual exchange of experiences, to major development projects with the aim of developing new ideas, methods and ways of working. It may also include exchanges of individual participants – for example continuing professional development for teachers and staff, or transnational pupil cooperation closely connected to curricula in order to enhance student achievement.

Target groups for the programme are kindergartens/preschools, primary schools, lower and upper secondary schools, vocational schools and apprentice programmes, and other organisations within the educational field.

Teachers and staff receive an opportunity to strengthen their professionalism and work skills through experience sharing. It provides new perspectives and increased understanding for other ways of teaching, and therefore a unique chance to reflect on one's own professional practice. It also aims at giving knowledge to develop methodology and pedagogical tools in order to fulfil the pupils' possibilities of reaching curriculum objectives. At the same time, staff acquires an international perspective which may have a direct effect on schools' quality assurance.

<https://www.nordplusonline.org/about/nordplus/> - **Nordplus 2023. – 27. darbības kopējais oficiālais apraksts, kurā definēti Nordplus mērķi**

The general objectives for Nordplus 2023–2027 are to:

- strengthen and develop Nordic and Baltic co-operation on education, including early childhood and care, and help to create a Nordic–Baltic educational area,
- support, build on, reap the benefits of and promote innovative products and processes in education through the systematic exchange of experiences and good practice,
- contribute to the development of quality and innovation in the educational systems for lifelong learning in the participating Nordplus countries through co-operation in education and training, as well as co-operation with the labour market on development projects, exchange programmes and networking,
- enhance mobility for educational purposes and expand digital collaboration in education in the region,
- enhance opportunities for all, regardless of background and resources, to participate in regional educational collaboration and to gain new knowledge and skills based on collaboration between organisations,
- promote Nordic languages and culture and mutual Nordic–Baltic linguistic and cultural understanding,
- improve inter-Nordic language comprehension (primarily between Danish, Swedish and Norwegian), especially among children and young people,
- stimulate interest in and knowledge and understanding of the languages of the Nordic countries essential to society (Danish, Finnish, Faroese, Greenlandic, Icelandic, Norwegian, Sami and Swedish) and Nordic sign language, and
- revitalise national minority languages in the Nordic Region for cultural and inclusive purposes.

PROGRAMME DOCUMENT

1. Introduction

This *Programme Document* for Nordplus:

- is valid for the period of 1 January 2023 until 31 December 2027 and contains general objectives and regulations for Nordplus,
- replaces the 2018–2022 programme and builds on the overarching objectives in the Nordplus programme periods of 2008–2012, 2012–2016 (2017) and 2018–2022,
- has been adopted by MR-U on 10.8.2022 in agreement with the Baltic states of Estonia, Latvia and Lithuania and after consultation with the Nordic Council,
- addresses the goals adopted for Nordplus and the five sub-programmes, which consist of the inter-sectoral *Nordplus Horizontal* and the four sectoral programmes *Nordplus Junior*, *Nordplus Higher Education*, *Nordplus Adult* and *Nordplus Nordic Languages*,
- describes the target groups and who is eligible to take part in Nordplus, the programme activities, guidelines for the Nordplus Programme Committee, regulations for the Nordplus administration and the general regulations for monitoring and evaluating the programme,
- describes the management structure and allocation of responsibilities for Nordplus between the Council of Ministers for Education and Research (MR-U)/the Committee of Senior Officials for Education and Research (EK-U), the Programme Committee for Nordplus, the Nordplus administration, including the main co-ordinator and other administrative staff, and the Nordic Council of Ministers' Secretariat,
- describes the basis and frameworks for the annual call for applications for programme funding.

Assessment criteria

All applications to Nordplus will be assessed according to the following criteria:

- The application must be within the regulations and main objectives of Nordplus
- The application activities must cover one or more of the objectives in the sub-programme
- The aims of the project and the approach chosen to achieve them must be clear and realistic

PROJECTS

Reporting

All recipients of Nordplus grants are obligated to report back to Nordplus at the latest 30 days after the contract period expires.

The reports are submitted online through Espresso by using the same **login** and **password** that were used for the application.

Note: For applications submitted through the ARS-system in 2012 and earlier, there will not be reporting through ARS. You will receive more information about this from the main administrator of the programme.

The final project report is divided into one **financial** section and one **content** section. The financial report must be authorised by the finance unit of the institution/organisation. Receipts should not be included in the report. They must be collected from all partners and kept with the coordinating organisation for at least 5 years after approval of the final report.

Economy

It is important that the project partners agree upon responsibilities for the project economy.

Dissemination of results

Dissemination of results is an important part of the project.

A Nordplus project should identify who the relevant recipients of the knowledge and experience gained in the project are. Examples of such recipients could be education institutions, politicians, trade unions, NGOs, public bodies, enterprises, researchers etc.

It is therefore crucial to make a plan for the dissemination and spreading of results at different levels. This plan should consider both short term and long term dissemination and exploitation of results.

There are many ways of disseminating results, such as:

- Web pages; both the project's web page, the partner institutions' web pages and other organisations' web pages.
- Use of social media
- Getting publicity in relevant media or press
- Publishing and promoting articles, books and other products from the cooperation
- Presentations of the results at relevant conferences and meetings
- Presentations for relevant politicians or stakeholders

A good plan for dissemination makes use of different communication channels, varying with the different target groups identified.

Project description

A Nordplus Junior project should correspond with the Nordplus Programme overall objectives and Nordplus Junior target groups and type of activities.

-Use the classic questions **why, who, what, when** and **how** when you plan the project and when you write the application. They will help you map the project and describe the project clearly for the assessors.

-Try to predict possible obstacles that might show up along the way – what might they be and how can you overcome them?

-Once you have an application draft in Espresso, let it rest a bit. Return later, rewrite and improve, then let somebody else outside the project give feedback focusing on readability and comprehension.

Each question is limited to maximum 200 words.

4.1. Relevance

4.2. Project objectives and content

4.3. Organisation and implementation

4.4. Dissemination of results

Relevance

This is where you present the specific aims of the project. What do you want to achieve with the project? The aims may be described on different levels, e.g. participant level, and organization level.

Which of the specific goal(s) of the Nordplus programme does your project target? Describe how the planned actions within the project address the chosen Nordplus programme goal(s).

Who is your target group and why is the project suited for this group?

Also, present the background and motivation for the project? The project can relate to e.g. specific needs or challenges of participants, be motivated by previous initiatives or specific priorities and focus areas of the organizations.

Explain how each partner in the project benefits and gains from the cooperation and will achieve positive changes in terms of development. All collaboration projects should be based on a reciprocal attitude and understanding.

Present how the project is anchored with management. Do you have support in means of extra time and resources by the headmasters/managements? Are your institutions' managements supportive of the project – how?

Explain what you can gain by cooperating with other Nordic/Baltic countries that you cannot gain on a national level. What is this added value? Why have you chosen each other?

... What type of activity shall you apply for?

Type of activity: *

☒ Class Exchange

☒ Teacher Exchange

.. 4.1.1. Project aim

Shortly and as clearly as possible describe the aim of the intended project. Explain in which ways the project corresponds with:

- the overall objectives of Nordplus.
- Nordplus Junior's target groups and type of activities.

Which school years/age group/type of school programme does the project involve?

.. 4.1.2. Development needs and Contribution

Identify development needs of all participating organisations. Clarify how all the participants (organisations and individuals) will benefit from the project, and how the results of the project will contribute to a positive development in the participating organisations. In what ways will each partner contribute in reaching the objectives of the project?

In what way does the management of each institution support the project?

Explain and clarify the value of cooperating internationally. What do you gain in this international collaboration?

4.1.Relevance

4.2.Project objectives and content

4.3.Organisation and implementation

4.4.Dissemination of results

Project objectives and content

This is where you present the objects for the project. All projects should aim to strive for the fulfilment of curricula for the pupils, and/or development of teachers' professionalism. Because of this, it is important to state which objectives in curricula, exams or competence development you are targeting in your project. Set specific objectives and describe them from a short- and long-term perspective. You do not have to cover several objectives, sometimes it is better to focus on one area to develop, and then limit the scope to this one area instead of trying to cover too much. If the objectives are measurable, it simplifies your future evaluation.

Also, present a structured activity plan for the full project period, which clearly demonstrates what is to be done, when it will be done, who is responsible and what the outcomes will be. It could be in the form of a time plan structured in different stages/ milestones or work packages. Also specify in what way these activities contribute to reaching the goals of the project?

A detailed program for the stay(s) must be presented. Please note that all planned activities must be completed within two years, which is the maximum project period for all projects. Remember to include the preparatory and follow up stages, e.g. preparations of the participants prior to the stay.

The budget consists of unit cost categories and will be assessed in relation to the planned activities and scope of the project. If it is realistic, it will be kept. If it is not, cuts will be made.

Applications for development projects need to attach a separate budget template. The link to the separate budget template is found in section 6.2 Attachment.

Be concrete when you present your plan for evaluation of the project and its results. Choose a couple of aspects/results/processes to evaluate and the means you will use. The evaluation could e.g. include questionnaires, interviews, testing, thematic debates etc., and focus on outcomes for adult learners/teachers, the functionality of a product, the cooperation between project organisations and the partnership composition etc. Through built-in monitoring you can more easily detect if you are off track from the project plan and adjust activities and tasks during the process and thereby achieve the most optimal results. For this purpose a risk analysis can be a fruitful tool.

4.2.1. Objectives

What are the objectives of the project and what do you hope to achieve? There can be long-term and/or short-term objectives.

Define the expected outcomes of the project and impacts on the participating institutions and individuals, in relation to the objectives you have set for the project.

4.2.2. Activity plan

Present a clear activity plan in a chronological order, concerning the activities you will undertake over the entire project period. What will you do, when and where? Describe the planned activities in detail (e.g. workshops, discussions, seminars, study visits, other elements or methods of learning).

Explain as clearly as possible how the planned activities realise and mirror the aims and objectives of the project.

4.2.3. Evaluation

Describe the evaluation process; continuous evaluation and final evaluation. What you are going to evaluate and measure (how, when, and by whom)? How will you ensure that you are following the initial aim and objectives for the project?

Organisation and implementation

This is where you present how the collaboration between the participating organisations is organized to ensure effective communication and balance of workload. Who does what? Specify the responsibilities of each organisation in the project, and describe how the organisations will be communicating and coordinating with each other, e.g. via virtual and physical meetings etc.

Also, present how your project is anchored in each partner organisation. By anchorage one can generally mean different things. It could refer to how the project is anchored with management (see 4.1.2.), how you implement and exploit the results (see 4.4.1.) or how you integrate project activities in daily work and in curricula. What we refer to as anchoring in this paragraph, is the last example – how you plan to implement the project in daily work, as well as in regulatory documents (if possible). How will the activities be visible in daily teaching and training for the participants? How do you plan to integrate teachers and pupils not participating directly in the project? E.g. even if only a smaller group of pupils take part in the mobilities, the project should involve a larger group – other classes/groups of students, teacher teams or the whole school/organisation. The development and activities need to be in accordance with curricula. All projects should aim to fulfill curricula – thus promote pupils' possibilities to reach the national objectives stated in each country's curricula, or to promote teachers' and other pedagogical staffs' professionalism.

Iespējami konkrēti jānorāda partnera uzdevumi, komunikāciju kanāli (Teams, ZOOM...) un saziņas regularitāte

... 4.3.1. Cooperation and responsibilities

Present how you are going to share the responsibilities and workload amongst all participating institutions. What are the roles of the participating institutions? (Who does what, how, where and when?)

What measures do you plan to ensure effective communication and cooperation between the participating institutions continuously during the project?

Šī ir ļoti būtiska sadaļa – jāparāda paredzamā projekta ietekme uz partneru organizācijām. Kā projekta aktivitātes ir saistītas ar izglītības iestādes ikdienas darbu? Izglītotāju un izglītojamo ieguvumi.

Nepieciešamas norādes uz **konkrētām mācību programmām / mācību priekšmetiem**, kuras ietekmēs projekta īstenošana.

... 4.3.2. Anchorage

Explain how you plan to anchor the project within the participating institutions. For instance, how will you integrate project activities in daily work, and how will fellow colleagues and non-participating pupils benefit from the project activities?

In which ways are the planned activities concretely connected to curricula? Describe the specific links to curricula.

Dissemination of results

This is where you present the expected results and outcomes of your project. The results can be given on different levels. Describe how you can use and utilize the results and experiences from the project in your organisations after it has ended. How will the project ensure that the results will be sustainable and come to the benefit of others?

Also, present your plan for the dissemination of results and experiences of the project both during the project period and after project end.

Describe the target groups for your dissemination and the means you will use to reach them, e.g presentations at meetings, seminars and conferences, articles in newspapers or professional magazines, open house events, distribution of folders and publications etc. The dissemination plan should include dissemination to external actors outside the partnership, e.g. other organisations in your field of work, teacher organisations and bodies for adult learning at regional, national or Nordic/Baltic level.

How will you spread the project's outcome, and which systems and methods do you have to use new knowledge and experiences in your organisation? Think about how you can implement changes in the actual teaching, subject contents and methods together with your colleagues.

.. 4.4.1. Results

Describe the expected results of the project. The results can be given on participant level, and on organisation level. Who will be affected and how – in concrete terms, how do e.g. the pupils, the teachers and the management benefit from the project? For development projects describe in particular if products are developed (teaching materials, methods etc.). Outline the content and purpose of the individual product, specifying how it is to be used by whom and for whom (target group).

How do you plan to implement and exploit the results among the participating institutions on a long-term basis?

Uzsvars - paredzamā ilgtermiņa ietekme; Ilgtspēja - projekta rezultātu izmantošana pēc projekta noslēguma.

.. 4.4.2. Internal dissemination of results

Which results will you focus on disseminating and for which reasons?

In what way do you intend to disseminate results to the participants in the project (how, where, when and by whom)?

Iespējami konkrēti jānorāda informācijas izplatīšanas kanāli (weblapas, plašsaziņas līdzekļi, iespējamie pasākumi)

.. 4.4.3. External dissemination of results

Which results will you focus on disseminating; for which reasons and to whom (individuals, groups and institutions)?

In which ways do you intend to disseminate the results to other relevant target groups outside the project?

6.1 Budget - Mobility

If you apply for **only** mobility activities (class-exchange and/or teacher exchange) the support of project management is **1000 EUR** for the coordinating institution and **500 EUR** for each partner institution(s). Register the total sum for project management support in the budget below. e.g. 1 coordinator and 2 partners 1000+ 500+ 500 = 2000 €.

Note that support given in addition to the travel support calculated by the application system. This grant is only allocated to mobility projects with budgets exceeding **15 000 EUR** (project management excluded). You must **apply for** this grant with this application in order to receive it. It cannot be added afterwards.

If you **also** apply for development project support use the sums calculated in the Nordplus Junior grant templet. **Note** that in a combined application you cannot receive project management support for *both* project categories.
